Jessica Deveny presents "Egg Circus"

Eggs are a very big deal. The circus is a wacky place where anything can happen. The art in the show is a conglomeration of everything, maybe even stuff that people ignore a lot. The Egg Circus is a free for all. Music by Chelsea Polk, a classical soloist, will be playing the strings and the infamous Cleveland clown Nicholas the Ridiculous will be making an appearance.

LOOP 2180 W 11th

ROBERT HARTSHORN STUDIO & GALLERY 2342 Professor

The Art of Industry, Group show June, July, August - Works of art in acrylic, oil, multi-media, lighting, iron and sculpture that celebrate Cleveland's rustbelt heritage and emergence as the preeminent home of Industrial Chic. Artists Rob Hartshorn, Fred Gearhart, David Adshade, Lila Rose Kole, Bill Forester and Ken Love present different perspectives on how industry influences art.

TREEHOUSE 820 College

Alex Henry - With this group of work, I'm looking at digital photographs of friends taken casually on cell phones as a selfie or a spontaneous record of a unique situation. The paint is applied with speculation in many thick, reworked layers of subtle color, to create a deep rich surface and an image that uses the flat pixelated reference to become a painting with presence.

GRAIN 2418 Professor

James Hamilton - Hamilton studied under the acclaimed Windsor chair maker Joe Graham. His innovative style has evolved further by combining the natural feel of reclaimed barn wood with edgy metal elements to create one of kind pieces. Including sculpture by artist, Matthew Albright.

TY FUN 815 Jefferson Ave

Garrett Weider - Cleveland-based collage art

WINE & DESIGN 751 Starkweather Ave

Featured Artist: Michelle Bennett. See her work, Beach Days

GRUMPY'S 2621 W. 14th St

Rodrigo Iglesias, photographer - "My mission is to photograph only what I love, and do more of it with less. Love is the primary driver of what I capture and eventually share." **Kristen Kantounatakis, multimedia artist** "I am an art therapist with a vicious case of wanderlust. There is nowhere on this earth I would encounter that could not make me a better, more well-rounded person. Discovering my own uncharted territories drives me forward. Our world is infinite, and it is my wish to share with you my experiences and to hopefully inspire you to discover your own uncharted territories."

FLYING MONKEY 819 Jefferson

EDISON'S 2373 Professor Ave.

Jill LeMieux - "I create animal portraits with personality. Using pointillism and a mosaic-like style, I have developed a signature look that explores color, contrast, and texture. My technique, combined with the subject matter, results in work that is intense, yet playful and often humorous."
